

Midcourse Review for Dr. Jason Todd
202008-ENGL-2200-01
Fall 2020
Conducted by Dr. Elizabeth Yost Hammer

What's working/Helping Learning

Themes that emerged about the course:

- Class discussion, vocabulary practice sessions, going over the homework in class/guided class, entry tickets on Tuesdays, the gamification, overall structure (read-exercises-entry ticket-video)

Themes that emerged about the instructor:

- Make expectations clear, organized, keeps us updated on the work, uses Zoom in a variety of ways

Not Working/Hindering Learning

The vast majority said "nothing."

A theme that emerged:

- Students' study habits, keeping up, students not participating in breakout rooms

Suggestions

There were several comments along the lines of "continue as is."

Issues that emerged:

- Release the work a few days ahead of time instead of 2 days before the class so we can get ahead (only 1 person), do more examples in class (e.g., Jamboard) (a couple of students)

My Comments

You had a 91% response rate to the survey. Overall this class seems to be going really well. They recognize the effort you are putting in and appreciate it. They really like the structure of the class work each week, more than one student reporting that it helps them learn by relearning. They also appreciate your making your expectations clear. Keep up the good work!
